

PACCELLI SOWERBY

Interior Designer, 24

A recent interior design graduate with 2 years industry experience in the residential and commercial sectors. I'm incredibly passionate about my career as a commercial designer, and have a particularly keen interest in experience-led design, hospitality and pop up design.

EMPLOYMENT

Interior Designer / Furnish & Fettle and One 6 Design
2020-Current role

I am currently running residential projects independently, carrying out the site survey, consultation, concept design, spatial layout, spec of FF&E, scheme presentation (incl. proposed technical drawings, visuals and material boards) then pricing and putting into production. My most recent ongoing project is a collaboration with White Rose Architecture on a bespoke home bar and extension. I've had the opportunity to make decisions on structural changes introducing windows, partitions and utilising existing architectural features as well as producing electrical and lighting plans.

Alongside an experienced commercial designer, I got the opportunity to set up commercial firm One 6 Design, Furnish & Fettle's sister company. This included a branding package, website, and pitching to win four medium sized commercial jobs within the first 4 months.

Interior Design Intern / Furnish & Fettle
2019-2020

Throughout my internship I gained great transferrable skills. I'm extremely comfortable in a client facing environment and have experience in demonstrating knowledge of materiality suitability, supplier info and experience in specifying. I've worked on bespoke furniture and kitchen projects, producing technical drawing packs and sketch-up models to communicate these to contractors and clients.

Creative Designer / Freelance
2019-2021

Keen to develop my skills further I have worked with various freelance clients: Adventure Street Dudley (concept, visuals and technical pack for a children's supermarket), Peleton (airport cycling store concept), Koncept (branding/logo), Velvet Lemonade (branding/logo).

Premier Service Expert
HSBC Bank Plc
Jan 2017 - Sept 2019

Working throughout university has made me excel in juggling several commitments at once without compromising on quality. I have strong communication skills and my telephone manner is experienced.
