I am a keen and enthusiastic student at the University of Huddersfield. I am a hardworking individual in which I put in diligent efforts into all the work I proceed in. Within my work and studies, I have been able to work comfortably in pressured environments, this has enabled me to develop my employability skills. I am always willing to take in new challenges and tasks which will help overall improve my skills in which I haven't already acquired.

Activities

During my free time I love spending time outdoors, whether it leads me to walking my dog, fishing, cleaning my car or socializing, the outside is a place I love to be. If unable to be outside I also have a vast interest for home projects, whether this requires me to build something physically or doing something to help. Also, gaming and computer technology is a large interest of mine in which fills up any time in between my other activities to keep me occupied.
