PROFILE

I am currently a full – time student at the University of Huddersfield, studying Interior Design BA (Hons). I am a motivated, diligent and creative individual, that has a desire to succeed at everything I do. I am able to adapt well in new situations, allowing me to overcome problems easily. My organisation skills have helped me successfully achieve deadlines under pressure and to the best of my ability. I am optimistic, sociable and love to offer my help to anyone who needs it, enabling me to work well in a team, however I also enjoy working independently. During my time at University, I have advanced my conceptual thinking, enabling me to create innovative, unique designs – something I pride myself on and wish to transfer in industry.
