

# ETHAN BARKER

## Profile

I am a young and enthusiastic product design student who loves expressing his creativity and ingenuity to solve problems. This is done through a multidisciplinary approach and through strong interpersonal skills.

## Education

### University of Huddersfield:

Product Design BA(Hons) (currently final year)

### Colchester Royal Grammar School:

A Levels:

Fine Art-B, Product Design-B, Maths-B, Physics-D, General Studies-B, EPQ(AS)-A

IGCSEs:

6 qualifications ranging from A\*-B incl. Triple Science and ICT

GCSEs:

6 qualifications ranging from A\*-B incl. Art, Latin, Technology and Maths.

## Experience

LEGO System A/S: January 2020-July 2020: I worked as a model design intern on the Ninjago team, developing concepts and products while learning the building system.

Moving to Denmark, I learned to work in a multi-national team and developed strong inter communicational skills enabling me to develop high quality solutions. This internship further helped me to refine my creative design skills and gain experience in toy design.

Martech UK Ltd July 2019-January 2020: I worked as a design engineer providing innovative solutions within the lighting sector. This involved the full design process from concept generation to completion releasing multiple products to market.

Key parts included working with company briefs, implementing product technical data and analysis, using stock control systems, maintaining contact with suppliers and manufacturers as well project management.

Brewfitt Project January 2019-May 2019: I carried out a project designing innovative bar font solutions for Brewfitt Ltd in order to solve issues consumers and users faced.

## Skills

Model Making

Drawing/Marker Rendering

Research

Teamwork
